

# Gloss Meter

## AG-106B/AG-1268B

### Feature

- All intelligent design, rapid measurement.
- Has voltage undervoltage indication function.
- During operation will be issued a prompt tone.
- Accurate measurement, good repetitiveness.
- Use USB data output with connection PC.

### Specification

Model	AG-106B	AG-1268B
Measuring Angles	60°	20°, 60°, 85°
Measuring Range	0.1 ~ 200 GU	
Stability	±0.4GU/30Min	
Error	< ± 1.2GU	
Accuracy	±1.0 gloss unit ( against reference standard )	
Resolution	0.1 GU	
Repeatability	±0.5 GU(0 ... 99.9)	
Environment Temperature	0°C~40°C	
Relative Humidity	No more than 85%	
Power Supply	Built-in 3.7V lithium Battery	
Size	136x44x78 mm	
Weight	350g (Including Batteries)
