

Multi function home use air purifier

Model: GL-8128

Make in room air more fresher

9 in 1 multi function purify

MAIN FUNCTION :

1. Monitor the air quality in real-time, the machine works automatically
2. Efficient remove the harmful gas such as formaldehyde, benzene TOV, remove odors, etc.
3. Active oxygen monitor in real-time. Automatically control the concentration of active oxygen released by machine
4. Ultraviolet sterilization, Every kinds of microorganisms can be killed, including reproductive body, spores mycobacteria, fungi, viruses, etc
5. The front filter, formaldehyde filter, activated carbon filter, HEPA filter. Four layers high efficiency filtration
6. High quantity of anion can absorb harmful materials, Promote the body's metabolism, improve human immunity

Specification:

1) Rate Voltage	AC100-240V/50 60HZ
2) Power	80W
3) Ozone output	500mg/h
4) Negative-ion output	5*10 ⁶ pcs/cm ³
5) Dimensions	320*199*645 mm
6) Net weight	8kg
7) Color	milk white
8) Materials	ABS
9) UV lamp power	5W
11) Timing	1H 2H 4H 8H 12H
12) Feature	HEPA, active carbon net, Sensor, touch screen, remote control

Product details

With an invisible handle on the back of machine , easy to move

45 degree air outlet design ,auto on/off with the machine power, keep the machine inside clean

Auto power off when open the front cover to protect the customer's safety

Multi function home use air purifier

Model: GL-8138

Make in room air more fresher

Air sensor & 3 color show air quality

Green

Air quality is good, keep in quite status when sleep

Yellow

A little pollution, work in mid speed, increase the speed of purification

Red

Bad air quality, working in high speed, effectively purify the air

Negative ion and ozone function

This unit can produce Negative Ion, which abounds in our natural environments such as forests, waterfalls, mountains and seaside. Negative ions are useful for enhancing the metabolism and homeostasis of the human body. effective in removing pollen, dust, mold spores and other harmful particles from the air and are able to improve mood.

The machine also has ozoen function ,ozone plays a important role in removing the odor in the air, It is much more effective inn removing pollutants and odors, and is a powerful oxidant that kills lower organism like bacteria, mold and viruses.

Remote control easy operation in home

Application

Living room

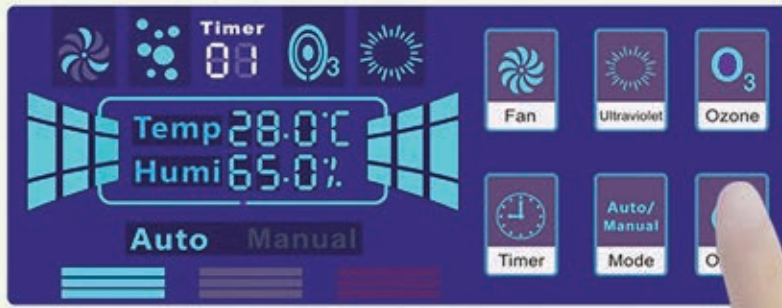

Study room

Bedroom

Pet Room

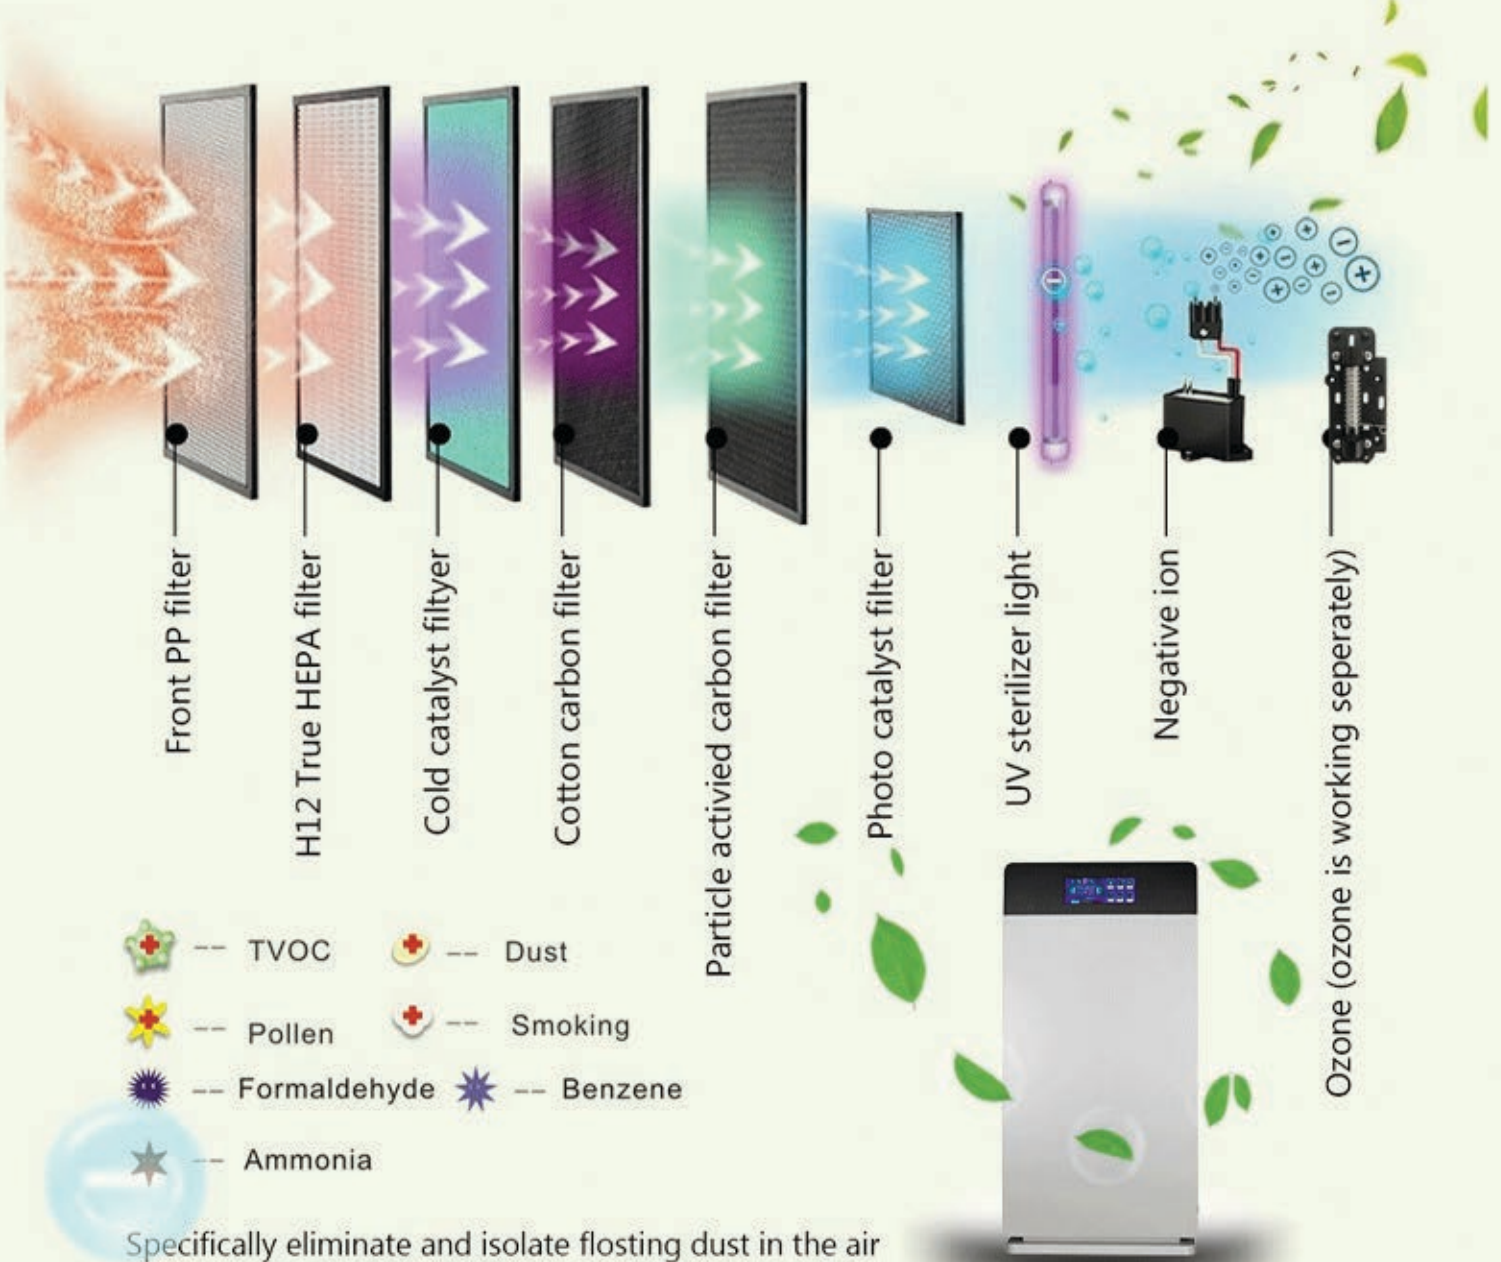

High resolution touch screen

Directly show the working status , also can lean the humidity and tempareture in time;

With 2 working modes , under the auto mode , the machine can auto adjust the fan speed according to the air quality changing

9 in 1 multi function purify

Product details

With an invisible handle on the back of machine , easy to move

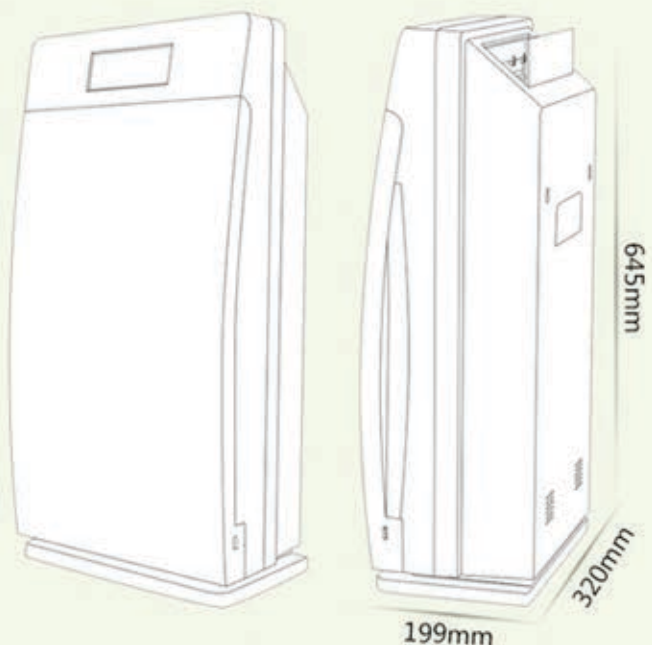

45 degree air outlet design ,auto on/off with the machine power, keep the machine inside clean

Auto power off when open the front cover to protect the customer;s safety

Specification (GL-8138)

Timer: 1-2-4-8-12 hours
Flow: Hi-Mi-Low-Auto
Air quality sensor: yes
Power: 73watt
Ozone output: 500mg/h
Negative ion: 5×10^6 pcs/cm³
Working area: 80-100 square meter
Dimension: L320×W199×H645 mm
Integrated filter size: 381×241×48mm
Activated carbon size: 380×240×20mm
